BPA INTERNATIONAL SELECTION FUND - World Opportunities, R class LU1110835680

a sub-fund of BPA INTERNATIONAL SELECTION FUND

This sub-fund is managed by Kredietrust Luxembourg S.A., member of KBL European Private Bankers S.A..

Objectives and investment policy

Objectives

The primary objective of the compartment is to achieve above-average capital appreciation, principally through investments in equities negotiated on international markets.

Investment policy

Under an active management, the focus will be on securities which are undervalued and/or show potential for growth, without limitations in allocating the compartment's assets to certain sectors, countries or industries, and respecting the criteria of risk diversification in order to preserve assets and obtain returns in absolute terms to the shareholder. The investment policy will also aim to maintain a sufficient liquidity to be able to face any redemption request. If a major

downward correction of the stock markets seems imminent, the compartment may temporarily switch the majority of its portfolio into cash and other liquid assets within the legal limits.

The sub-fund may only use listed futures for hedging purpose.

The currency of the sub-fund is expressed in EUR.

The investor may subscribe, convert and redeem shares on each bank business day in Luxembourg.

Income of this share class is reinvested (accumulated).

Recommendation

This sub-fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Risk and reward profile

What does this synthetic indicator mean?

- The calculation of the risk indicator is based on estimated and historical data which may not be a reliable indication of the future risk profile of the sub-fund.
- The risk category shown is not guaranteed to remain unchanged. The sub-fund's risk indicator may shift over time.
- The lowest category does not mean a risk-free investment.
- The sub-fund BPA INTERNATIONAL SELECTION FUND - World Opportunities has been assigned to category 6 due to its investments principally in equities or equities related instruments negotiated on international markets.
- Your initial investment does not benefit from any guarantee or protection.

The risk and reward Indicator does not take into account the following:

- The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions.
- The investment in underlying funds implies that the sub-fund is exposed to 1) the investment risks borne by the underlying funds, 2) the risk of increases in the level of charges borne by the underlying funds and 3) the risk that the underlying funds limit or suspend the right for their investors to redeem.
- Movements in currency exchange rates can adversely affect the return of your investment. The currency hedging used to minimize the effect of currency fluctuations may not always be successful.
- Using derivatives can involve a higher level of risk. A small movement in the price of an underlying investment may result in a disproportionately large movement in the price of the derivative instrument.
- Failure or deficient processes, systems and controls, human error or catastrophic events may lead to important losses.

Where to find out more about the risks of the sub-fund?

Full information on the risks applicable to the sub-fund is detailed in the prospectus.
